Associate Board of The Harold E. Eisenberg Foundation Announces 2019 EISENOPOLY Event to Raise Funds for Gastrointestinal Cancer Research

The Associate Board of the Harold E. Eisenberg Foundation will host its 10th annual Eisenopoly at the West Loop's Revel Fulton Market. The fundraiser engages a spirited group of over 600 Chicagoans in a fast-paced Monopoly-themed evening that plays out on customized boards for the chance to win high stakes prizes. Guests will sample bites from the best Chicago has to offer along its Restaurant Row, enjoy live music, craft cocktails and festivities led by the Eisenopoly man himself. The unique and much anticipated event of the winter raises funds for the foundation's two-pronged mission: to fund gastrointestinal (GI) cancer research and to advance real estate education in an unforgettable, energy-filled evening.

Eisenberg Foundation's Annual Eisenopoly Furthers Its Namesake's Values

January 8, 2019

Shortly after Harold E. Eisenberg passed away suddenly from liver and pancreatic cancers in early 1999, his family and friends established a foundation in his name to fund research into GI cancers. Twenty years later, the Harold E. Eisenberg Foundation continues to fight cancer, partnering with the Robert H. Lurie Comprehensive Cancer Center of Northwestern University, and to carry on its namesake's values, including education and mentorship.

Among the ways in which the Eisenberg Foundation furthers its mission is through fundraising events, such as the annual Eisenopoly, a Monopoly-themed evening played out on customized boards and known as "the best party of the winter." The 2019 edition of Eisenopoly is set for Feb. 1 at Revel Fulton Market.

The co-chairs of this year's Eisenopoly—Mike Mintz, VP at Millennium Properties and Hannah Oimoen, senior financial analyst at Pritzker Realty Group—each have benefited from the foundation's climate of outreach. While a student at the University of Illinois, Oimoen was a recipient of one of the real estate scholarships the foundation awards each year, while Mintz was a beneficiary of the one-on-one mentorship it provides via executives from some of the Chicago region's leading firms.

In all, the Eisenberg Foundation now has 14 education programs. It has impacted thousands of students along the way, invested nearly \$500,000 in scholarships and educational programming, and dedicated over 1,200 days of one-on-one mentorship.

While that outreach has been a part of the foundation's mission all along, "It has been elevated by the elevation of the organization," says Oimoen.

One way in which the organization steps up its game is through a "pipeline" of leaders who begin on the foundation's associate board, and then move up to the executive board. "You can really feel the tangible impact of younger

Tenth annual Eisenopoly raises record funds for cancer research

February 8, 2019 | Staff Writer

On Friday, February 1st, the associate board of the [Harold E. Eisenberg Foundation](#) hosted the tenth annual EISENOPOLY at Revel Fulton Market. The event raised over \$215,000—a record high—for gastrointestinal cancer research at the [Robert H. Lurie Comprehensive Cancer Center](#) at Northwestern University.

The funding supports the GI Cancer Tissue Bank and the \$1.5 million dollar commitment to the Harold E. Eisenberg GI Cancer OncoSET program, an unprecedented initiative to deliver personalized, effective cancer treatments to patients who currently have very limited options.

This fundraiser, unlike any other, welcomed a group of over 550 guests to face off in speed rounds of the monopoly-themed board game. Live music by [Gold Coast All Stars](#), dancing and delicious food served by some of Chicago's most notable chefs made the night one to remember. The Grand Prize winner took home a weekend at the Talbott Hotel, dinner at Shaw's Crab House, theatre tickets and a nightcap at Kingston Mines.

"In its tenth year, the outpouring of support from guests, local restaurants, sponsors and our outstanding board have made this signature event more successful than ever," said Katie Wales, Harold E. Eisenberg Foundation executive director. "Together this group is making a lasting and necessary impact on the future of cancer research."
